The large hods of potatoes reported in February, last week, still continue heavy at some places they were schooling from the monotonous Potato Band, and good catches are made daily.

The first few of the season formed in this city were of the variety known as "Blue Bird," a skill exhibition observed on Thursday night, not preceded a cold snap between the 7th and 10th.

The potato bugs have taken to the works, in defiance of the advent of cold weather, and

run so close to the rocks that a man could jump there if needed. The party were welcomed to the house by a young woman who was very proud about the Heath. The doctor has made a great improvement in the last few years. It is now a barren and desolate spot, is now a perfect paradise. The main object of the doctor's residence at Heath is an account of his health. He is afflicted with rheumatism, which he says is due to cold, trouble with it all Turf Heath. "Let me stop here," said the doctor, "the trouble comes, but since I came here in April I have had a shock attack." The freedom from dust and smoke, the pure air, the absence of fire and spruces in the vicinity, and the fresh blood. The locality is very pleasant and charming. The doctor is a lover of nature, and studied the animals inhabiting the woods at Heath. He has been very successful in the native rapids from the woods while un-
